8. HIGHER EDUCATION IN BOSNIA AND HERZEGOVINA

Higher Education in Bosnia and Herzegovina is regulated by the Framework Law on Higher Education in Bosnia and Herzegovina ("The Official Gazette of Bosnia and Herzegovina", No. 59 dated from August 7th, 2007.), as well as by Laws at the level of Republic Srpska and the Federation of B&H.

Higher education is organised in three cycles (Article 5 of the Framework Law):

- the first cycle leading to the academic title of completed undergraduate studies (Bachelor's degree) or equivalent, obtained after no less than three and no more than four years of full-time study upon acquiring a secondary school leaving certificate, valued as no less than 180 ECTS or 240 ECTS credit points;
- the second cycle leading to the academic title of Master or equivalent, obtained after the completion of undergraduate studies, of duration of one or two years, and valued as 60 or 120 ECTS credit points, in such a way that the total with the first cycle represents 300 ECTS points;
- the third cycle leading to the academic degree of Doctor or equivalent, of duration of three years, and valued as 180 ECTS credit points.

One semester of full-time studies carries 30 ECTS credit points in each cycle.

Higher education institutions in Bosnia and Herzegovina are Universities and Colleges (orig. *higher schools*). The title "University" is limited to higher education institutions undertaking both education and research, offering academic degrees in all three cycles, with objectives including the advancement of knowledge, thought and scholarship in Bosnia and Herzegovina, the educational, scientific, cultural, social and economic development of Bosnia and Herzegovina, as well as the promotion of democratic civil society, citizenship and the achievement of the highest standards in teaching and learning.

The University "Vitez" Vitez organises all three cycles of studies at four faculties and 14 courses.
